PROFILE

B.Tech student in Artificial Intelligence and Machine Learning at VVIT Guntur with a strong foundation in AI concepts, data handling, and application development. Interested in building real-world solutions using machine learning and modern technologies. Actively seeking opportunities to apply technical skills, enhance industry knowledge, and contribute to impactful, user-centric projects.

EDUCATION

Vasireddy Venkatadri Institute of Technology <i>B.Tech in Artificial Intelligence and Machine Learning (AI&ML)</i> CGPA : 8.35/10.0	09/2023 – Present Guntur
Sri Chaitanya Junior College <i>Board of Intermediate -Percentage: 96%</i>	09/2021 – 05/2023 Vijayawada
Sri Chaitanya School <i>Boards - Percentage: 98.1%</i>	06/2017 – 03/2021 Guntur

SKILLS

- **Languages:** Python, Dart, Java, JavaScript, HTML, CSS
- **Frameworks/Libraries:** Flutter, Pandas, NumPy, Scikit-learn, TensorFlow
- **Tools:** VS Code, GitHub, Jupyter Notebook, REST APIs

PROJECTS

Fake News Detection using AI:

Tech Stack: Python, Scikit-learn, TensorFlow, NLP (NLTK / SpaCy), Pandas, NumPy, Flask

Developed an AI-based system to classify news articles as real or fake using natural language processing techniques. The model analyzes textual patterns and semantic features to detect misinformation with high accuracy. Designed to support faster and more reliable content verification.

Crop Prediction System Using AI (Flutter App):

Tech Stack: Flutter (Dart), Python, Scikit-learn, Pandas, NumPy, Flask / FastAPI

Built an AI-driven crop recommendation system that predicts the most suitable crop based on soil and environmental parameters such as temperature, rainfall, humidity, and pH. Integrated the machine learning model with a Flutter mobile application for easy farmer interaction.

CERTIFICATIONS & LEADERSHIP

- **Introduction to LLMs** – NPTEL
- **Introduction to SQL** – Sololearn
- **HTML and CSS: From Beginner to Advanced** – Udemy
- **ACM Membership Chair** – Led membership coordination and supported student engagement activities within the ACM student chapter
